INFO. 25X1A SUPPLEMENT TO 25X1A
REPORT NO. **RETURN TO CIA LIBRARY**

25X1X

1. The first prospecting operations in the Freital area were started in early 1948. Construction of mining installations started four weeks later.
2. Large waste amounts were mined. Three percent of the produced material was sent to the chemical laboratory of the Senning Plant in Freital (N51/F18).
3. An ore washing plant of the Wismuth Corporation was being constructed in Freital. It will allegedly serve for chemical and mechanical dressing.

25X1A

Comment: This information is a supplement to the detailed report on uranium deposits in the Freital District. The existence of the ore washing plant in Freital could not be confirmed.
